Workshop Program

Day 1

Day 2

Aim and Scope of Workshop

Presentation Notes

Review of Lobster Health and Disease Processes *Louis Evans*

Physiological Stress Responses on Post Harvest Lobsters *Brian Paterson*

Hemocytes and Disturbances *Japo Jussila*

Copies of Publications and Reports

Crustacean Host Defence Mechanisms with Emphasis on Clawed and Spiny Lobsters

Louis Evans, Japo Jussila, Elena Tsvetnenko and Seema Fotedar

Rock Lobster Post Harvest Subprogram

Physiological Studies of Stress and Morbidity during Postharvest Handling on Western Rock Lobster *Panulirus cygnus* II. Standard autopsy techniques and immune system competency

Background Information and Progress Report

Louis Evans, Japo Jussila, Seema Fotedar, Robert Dunstan, Jeff Jago, Brian Jones

Stress Indicators in marine decapod crustaceans, with particular reference to the grading of western rock lobsters (*Panulirus cygnus*) during commercial handling

Brian D Patterson and Patrick T Spanoghe. Mar. Freshwater Res., 1987, 48, 829-834

Total and differential haemocyte counts in western rock lobsters (*Panulirus cygnus* George) under post-harvest stress

Japo Jussila, Jeff Jago, Elena Tsvetnenko, Bob Dunstan and Louis Evans. Mar. Freshwater Res. 1997, 48, 863-868.

Disease of Spiny Lobsters

L.H. Evans, J.A. Brock
