FISHERIES RESEARCH AND DEVELOPMENT CORPORATION (FRDC)

STATEMENT BY THE MANAGING DIRECTOR AND A/g CHIEF FINANCIAL OFFICER

In our opinion, the attached financial statements for the period ended 31 May 2020 comply with subsection 42(2) of the Public Governance, Performance and Accountability Act 2013 (PGPA Act), and are based on properly maintained financial records as per subsection 41(2) of the PGPA Act.

In our opinion, at the date of this statement, there are reasonable grounds to believe that the FRDC will be able to pay its debts as and when they fall due.

Overview

Objectives of the FRDC

The FRDC is an Australian Government controlled entity. It is a not-for-profit entity established as a statutory corporation on 2 July 1991 under the provisions of the *Primary Industries Research and Development Act 1989* (PIRD Act). The objectives of the FRDC are to plan and invest in fisheries research, development and extension (RD&E) activities and in related marketing activities.

As a national organisation with strong linkages to industry, managers, and researchers the FRDC has a fundamental role in providing leadership and coordination. The FRDC achieves this through establishing strong relationships, and putting in place mechanisms to identify and address priorities with industry and government stakeholders. In addition, the FRDC monitors and evaluates the adoption of RD&E and marketing outputs to better inform future decisions.

The FRDC is structured to meet the following outcome:

Increased economic, social and environmental benefits for Australian fishing and aquaculture, and the wider community, by investing in knowledge, innovation, and marketing.

The continued existence of the FRDC in its present form, and with its present outcome, is dependent on Australian Government policy, and on continuing funding from the Australian Government for the FRDC's outcome.

The basis of preparation

The financial statements are general purpose financial statements, and are required by section 42 of the *Public Governance, Performance and Accountability Act 2013*.

The financial statements have been prepared in accordance with:

- a) Public Governance, Performance and Accountability (Financial Reporting) Rule 2015 (FRR); and
- b) Australian Accounting Standards and Interpretations - Reduced Disclosure Requirements issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period.

The financial statements have been prepared on an accrual basis, and in accordance with the historical cost convention, except for certain assets and liabilities at fair value. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position. The financial statements are presented in Australian dollars.

New Australian Accounting Standards

Adoption of new and future Australian Accounting Standard requirements

No accounting standard has been adopted earlier than the application date as stated in the standard.

The new standards, revised standards, interpretations and amending standards that were issued prior to the signing of the statements by the: Board Chair; Finance, Audit and Risk Management Committee Chair; Managing Director; and Chief Financial Officer; and are applicable to the current reporting period, did not have a material impact, and are not expected to have a future material impact, on the FRDC's financial statements.

Taxation

The FRDC is exempt from all forms of taxation except Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Events after the reporting period

No reportable events have occurred after the Statement of Financial Position date.

Financial Performance

Other suppliers

Operating lease rental in connection with external parties

Operating lease rentals ¹	173,444	157,292
Workers compensation expenses	10,183	12,643
Total other suppliers	183,627	169,935
Total suppliers	1,476,043	1,432,754

¹ Operating lease commitments

Canberra office

Operating leases included were effectively non-cancellable. The lease for the office accommodation at 25 Geils Court, Deakin, Australian Capital Territory has been renegotiated for a further three years and expires 31 July 2023. Lease payments are subject to a 3 percent annual increase in accordance with the lease agreement.

Adelaide office

The lease for the office accommodation at Wine Australia, corner Botanic and Hackney Roads, Adelaide, South Australia commenced 31 March 2016 with an annual right of renewal until 30 March 2021. The current lease term expires 30 March 2021. Lease payments are subject to the annual increase in accordance with movements in the consumer price index.

Commitments for minimum lease payments in relation to non-cancellable operating leases are payable as follows:

Within 1 year	187,082	185,886
Between 1 to 5 years	309,296	23,792
Total operating lease commitments	496,378	209,678

Note: Leasing commitments are GST inclusive.

Accounting policy

Operating lease payments are expensed on a straight-line basis, which is representative of the pattern of benefits derived from the leased assets.

	2019-20	2018-19
<i>Note 1.1: Expenses continued</i>	\$	\$

Note 1.1C: Projects

Australian Government entities (related parties)	2,318,466	2,720,198
State and territory governments	4,256,931	5,914,153
Universities and educational bodies	7,770,045	6,558,562
Cooperative research centres	-	100
Research and development corporations	175,622	5,768
Industry (commercial, recreational and Indigenous)	7,713,333	6,052,505
Overseas research entities	125,456	139,365
Private providers	3,548,936	4,126,174
Total projects	25,908,789	25,516,825

Accounting policy

The FRDC recognises project liabilities through project agreements that require research partners to perform services or provide facilities, or to meet eligibility criteria. In these cases, liabilities are recognised only to the extent that the services required have been performed, an invoice issued consistent with the contractual requirements, and the eligibility criteria have been satisfied by the research partner to the FRDC's satisfaction.

Project commitments

Project commitments comprise the future funding of approved projects that are contingent on the achievement of agreed deliverables over the life of those projects (project agreements are exchanged prior to release of the first payment on a project). Projects, where amounts were payable but were unpaid at the end of the period, have been brought to account as project payables. The FRDC contracts to fund projects in future years in advance of receipt of the income needed to fund them. FRDC manages this risk by having the project agreement allow for termination at its sole discretion for any reason. If the FRDC were to terminate a project agreement, it would only be liable to compensate the research partner for any reasonable costs in respect of unavoidable loss incurred by the research provider and directly attributable to the termination of the agreement, provided that the costs are fully substantiated to the FRDC.

Project commitments are payable as follows:

Within 1 year (unpaid deliverables up to 30 June 2020)	17,246,259	17,344,424
Between 1 to 5 years (1 July 2020 to 30 June 2024)	45,940,868	40,268,259
Over 5 years (from 1 July 2024)	-	146,674
Total project commitments	63,187,126	57,759,357

Note: Project commitments are GST inclusive.

Note 1.1D: Write down and impairment of assets

Write down of intangible assets	-	12,073

	2019-20	2018-19
	\$	\$

Note 1.2: Own-source income

Own-source revenue

Note 1.2A: Sale of goods and rendering of services

Sale of goods	-	-
Total sale of goods and rendering of services	-	-

Accounting policy

Revenue from the sale of goods is recognised when:

- a) the risks and rewards of ownership have been transferred to the buyer, and
- b) the entity retains no managerial involvement or effective control over the goods.

The stage of completion of contracts at the reporting date is determined by reference to the proportion that costs incurred to date bear to the estimated total costs of the transaction.

Receivables for goods, which have 30 day terms, are recognised at the nominal amounts due less any impairment allowance account. Collectability of debts is reviewed at the end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

Note 1.2B: Interest

Deposits	296,996	519,160
Total interest	296,996	519,160

Accounting policy

Interest revenue is recognised using the effective interest method.

Note 1.2C: Grants

Australian Government		
Department of Agriculture ¹	197,500	2,403,716
Total grants	197,500	2,403,716

¹ RD&E funding from Department of Agriculture.

The FRDC has a Research & Development Funding Head Agreement with the Department of Agriculture under which it manages a suite of research activities. The activities are listed at Note 3.4B, page 20.

Accounting policy

Australian Government grants income is revenue paid to FRDC for the purpose of funding specific research and development projects, and is recognised when:

- a) the FRDC obtains control of the grant or the right to receive the grant;
- b) it is probable that the economic benefits comprising the grant will flow to the FRDC; and
- c) the amount of the grant can be reliably measured.

	2019-20	2018-19
	\$	\$

Note 1.2: Own-source income continued

Note 1.2D: Contributions

Fisheries

Australian Prawn Farmers Association	94,668	86,645
Australian Fisheries Management Authority	-	315,000
New South Wales	584,581	778,953
Northern Territory	217,807	183,439

South Australia	967,332	935,219
Tasmania	2,200,235	2,362,934
Victoria	247,683	209,562
Western Australia	1,742,417	1,391,666
Total contributions	6,688,499	7,155,371

Accounting policy

Contributions are recognised when:

- the FRDC obtains control of the contribution or the right to receive the contribution;
- it is probable that the economic benefits comprising the contribution will flow to the FRDC; and
- the amount of the contribution can be reliably measured.

Note 1.2E: Other revenue

Project funds received	802,951	1,808,250
Project refunds of prior years expenditure	189,072	95,949
Other	290	-
Total other revenue	992,313	1,904,199

Accounting policy

Project funds received are recognised when they are entitled to be received by the FRDC.

Project refunds from research partners are brought to account when received.

Note 1.2F: Revenue from the Australian Government

Department of Agriculture		
Corporate Commonwealth entity payment item of 0.50% of AGVP ¹	14,128,439	13,626,504
Matching of industry contributions ²	4,950,626	5,553,666
Total revenue from the Australian Government	19,079,065	19,180,170

¹ AGVP is the average gross value of fisheries production for the current year and the two preceding financial years. The Australian Government's contribution of 0.50% of AGVP is made on the grounds that the FRDC exercises a stewardship role in relation to fisheries resources on behalf of the Australian community.

² Matching of industry contributions (up to 0.25% of AGVP) by the Australian Government.

Accounting policy

Revenue from the Australian Government

Revenues from the Australian Government are recognised when they are entitled to be received by the entity.

Funding received or receivable from non-corporate Commonwealth entities (appropriated to the non-corporate Commonwealth entity as a corporate Commonwealth entity payment item for payment to this entity) is recognised as Revenue from Government by the corporate Commonwealth entity unless the funding is in the nature of an equity injection or a loan.

Financial Position

	2019-20	2018-19
Note 2.1: Financial assets	\$	\$

Note 2.1A: Cash and cash equivalents

Total as at 31 May 2020	18,979	600,641	619,620

Revaluations of non-financial assets

No indicators of impairment were found for property, plant and equipment or intangibles.

No property, plant and equipment is expected to be sold or disposed of within the next 12 months.

Accounting policy

Assets are recorded at cost on acquisition except as stated below. The cost of acquisition includes the fair value of assets transferred in exchange and liabilities undertaken. Financial assets are initially measured at their fair value plus transaction costs where appropriate.

Assets acquired at no cost, or for nominal consideration, are initially recognised as assets and income at their fair value at the date of acquisition, unless acquired as a consequence of restructuring of administrative arrangements. In the latter case, assets are initially recognised as contributions by owners at the amounts at which they were recognised in the transferor's accounts immediately prior to the restructuring.

Asset recognition threshold

Purchases of property, plant and equipment are recognised initially at cost in the Statement of Financial Position, except for purchases costing less than \$5,000 that are expensed in the year of acquisition (other than where they form part of a group of similar items where the value is greater than \$5,000).

Revaluations

Following initial recognition at cost, property, plant and equipment are carried at fair value less subsequent accumulated depreciation and accumulated impairment losses. Valuations are conducted with sufficient frequency to ensure that the carrying amounts of assets do not differ materially from the assets' fair values as at the reporting date. The regularity of independent valuations depend on the volatility of movements in market values for the relevant assets.

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reverses a previous revaluation decrement of the same asset class that was previously recognised in the surplus/deficit. Revaluation decrements for a class of assets are recognised directly in the surplus/deficit except to the extent that they reversed a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset, and the asset restated to the revalued amount.

Depreciation

Depreciable property, plant and equipment assets are written off to their estimated residual values over their estimated useful lives to the FRDC using, in all cases, the straight-line method of depreciation.

Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

	2019-20	2018-19
Property, plant and equipment	up to 5 years	up to 5 years
Leasehold improvements	Lease term	Lease term

Impairment

All assets were assessed for impairment at 31 May 2020. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

The recoverable amount of an asset is the higher of its fair value less costs of disposal and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset's ability to generate future cash flows, and the asset would be replaced if the entity were deprived of the asset, its value in use is taken to be its depreciated replacement cost.

Derecognition

An item of property, plant and equipment is derecognised upon disposal, or when no further future economic benefits are expected from its use or disposal.

Intangibles

The FRDC's intangibles comprise internally developed software and purchased software for internal use. These assets are carried at cost less accumulated amortisation and accumulated impairment losses.

Software is amortised on a straight-line basis over its anticipated useful life. The useful lives of the FRDC's software is 10 years (2018-19: 10 years).

All software assets were assessed for indications of impairment as at 31 May 2020.

More than 12 months	97,573	68,983
Total employee provisions	833,306	939,273

Accounting policy

Liabilities for short-term employee benefits and termination benefits expected within 12 months of the end of reporting period are measured at their nominal amounts. Other long-term employee benefits are measured as net total of the present value of the defined benefit obligation at the end of the reporting period minus the fair value at the end of the reporting period of plan assets (if any) out of which the obligations are to be settled directly.

Leave

The liability for employee benefits includes provision for annual leave and long service leave. The leave liabilities are calculated on the basis of employees' remuneration at the estimated salary rates that will be applied at the time the leave is taken, including the entity's employer superannuation contribution rates to the extent that the leave is likely to be taken during service rather than paid out on termination. The estimate of the present value of the liability takes into account attrition rates and pay increases through promotion and inflation.

Superannuation

The FRDC's staff are members of the Public Sector Superannuation Scheme (PSS), or the PSS accumulation plan (PSSap), or other superannuation funds held outside the Australian Government.

The PSS is a defined benefit scheme for the Australian Government. The PSSap and any other superannuation funds are defined contribution schemes.

The liability for defined benefits is recognised in the financial statements of the Australian Government and is settled by the Australian Government in due course. This liability is reported in the Department of Finance's administered schedules and notes.

The FRDC makes employer contributions to the employee's defined benefit superannuation scheme at rates determined by an actuary to be sufficient to meet the current cost to the Australian Government. The entity accounts for the contributions as if they were contributions to defined contribution plans.

Note 3.2: Key management personnel remuneration

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the FRDC, directly or indirectly, including any director of the board (whether executive or otherwise) of the FRDC. The FRDC has determined the key management personnel to be the non-executive directors, the Managing Director and three senior general managers. Key management personnel remuneration is reported in the table below:

	2019-20	2018-19
	\$	\$
Short-term employee benefits (salary)	1,143,996	1,084,495
Post-employment benefits (superannuation)	188,039	200,289
Other long-term employee benefits (annual leave and long service leave)	114,014	110,936
Total key management personnel remuneration expenses	1,446,050	1,395,720

The total number of key management personnel that are included in the above table is 12 (2018-19: 17). They are made up of:

- seven non-executive directors
- one non-executive director (Chair)
- one Managing Director
- three senior general managers
- one non-executive director (Chair) (retired 1 January 2020)

Note 3.3: Annual total remuneration ranges (including superannuation) paid to key management personnel

\$280,000 to \$309,999	1	1
\$340,000 to \$369,999	1	1
Total number of key management personnel	12	17

Note 3.4: Related party disclosures**Related party relationships**

The FRDC is an Australian Government controlled entity. Related parties to this entity are non-executive directors, the Managing Director, and three senior general managers and other Australian Government entities.

The non-executive directors and the Managing Director of the FRDC during the year were:

Mr John Williams	Chair (Appointed 9 March 2020)
Dr Kathryn Brooks	Director (Member Investment Mechanisms Working Group)
Professor Colin D. Buxton	Director (Deputy Chair) (A/g Chair) (Member Investment Mechanisms Working Group)
Dr Saranne Cooke	Director (Member Finance, Audit and Risk Management Committee)
Ms Katina Hodson-Thomas	Director (Member People and Culture Committee)
Dr Patrick Hone	Managing Director (Member Investment Mechanisms Working Group)
Mr Mark King	Director (Chair People and Culture Committee)
Mr John Lloyd	Director (Chair Investment Mechanisms Working Group) (Member Finance, Audit and Risk Management Committee)
Dr Lesley MacLeod	Director (Chair Finance, Audit and Risk Management Committee)
The Hon. Ronald Boswell	Chair (Retired 1 January 2020)

Note 3.4A: Transactions with director-related entities

The FRDC's practice is to disclose all transactions with an entity with whom a director has an association. This means that directors who have disclosed a material personal interest that all the transactions of that entity will be listed. Typically, the FRDC will not transact with all the entities for which a director has made such a declaration. The transactions that are not with related parties as defined by AASB124 Related Party Disclosures, are identified below with an asterisk (*)

The FRDC's 'Board governance policy' provides guidance to directors on how the FRDC deals with material personal interests. Where a director has an association with an entity where a conflict has the potential to arise, in addition to the duty to disclose that association, the director absents him/herself from both the discussion and the decision-making process.

Given the breadth of Australian Government activities, related parties may transact with the government sector in the same capacity as ordinary citizens. Such transactions include the payment or refund of taxes, receipt of a Medicare rebate or higher education loans. These transactions have not been separately disclosed in this note.

The Directors disclosed material personal interests during the directors' related period.

Director	Organisation and position held	Nature of interest
Dr K. Brooks (Appointed 10 Oct 2018)	OzFish Unlimited <i>Non-Executive Director</i> 1 July 2019 to current	Research projects or work undertaken by the organisation

Council of Rural Research & Development Corporation 1 July 2019 to current	51,940	-	-	-

All transactions were conducted under normal terms and conditions and include GST.

Note 3.4B: Other related party disclosures**Department of Agriculture**

The FRDC has a Research & Development Funding Head Agreement with the Department of Agriculture under which it manages the suite of activities detailed below:

- An assessment of the non-market value of recreational fishing of Southern Bluefin Tuna fishery
- Aquatic Animal Health Training Scheme 2019-2022
- Aquatic Deed activities
- Aquavetplan manuals
- Development of on-farm biosecurity plan implementation support programs for aquaculture industry
- Improve Access to Industry Priority Uses of Agvet Chemicals
- National Carp Control Plan
- Non-tariff measures projects
- Rural R&D for Profit: Boosting farm profits through rural R&D Activity: East Open Oyster automation
- Rural R&D for Profit: Growing a profitable, innovative and collaborative Australian Yellowtail Kingfish
- The role of the recreational fisher in the stewardship of the Southern Bluefin Tuna fishery

The FRDC was provided grants in 2019-20 totalling: \$197,500 (2018-19: \$2,403,716) (refer Note 1.2C: Grants).

Total financial assets		25,107,449

Accounting policy

Financial assets

With the implementation of AASB 9 Financial Instruments for the first time in 2019, the entity classifies its financial assets in the following categories:

- financial assets at fair value through profit or loss;
- financial assets at fair value through other comprehensive income; and
- financial assets measured at amortised cost.

The classification depends on both the entity's business model for managing the financial assets and contractual cash flow characteristics at the time of initial recognition. Financial assets are recognised when the entity becomes a party to the contract and, as a consequence, has a legal right to receive or a legal obligation to pay cash and derecognised when the contractual rights to the cash flows from the financial asset expire or are transferred upon trade date.

Comparatives have not been restated on initial application.

Financial Assets at Amortised Cost

Financial assets included in this category need to meet two criteria:

- the financial asset is held in order to collect the contractual cash flows; and
- the cash flows are solely payments of principal and interest (SPPI) on the principal outstanding amount.

Amortised cost is determined using the effective interest method.

Effective Interest Method

Income is recognised on an effective interest rate basis for financial assets that are recognised at amortised cost.

Impairment of Financial Assets

Financial assets are assessed for impairment at the end of each reporting period based on Expected Credit Losses, using the general approach which measures the loss allowance based on an amount equal to lifetime expected credit losses where risk has significantly increased, or an amount equal to 12-month expected credit losses if risk has not increased.

The simplified approach for trade, contract and lease receivables is used. This approach always measures the loss allowance as the amount equal to the lifetime expected credit losses.

A write-off constitutes a derecognition event where the write-off directly reduces the gross carrying amount of the financial asset.

Financial liabilities

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or other financial liabilities.

Financial liabilities are recognised and derecognised upon 'trade date'.

Financial Liabilities at Amortised Cost

Financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. These liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective interest basis.

Supplier and other payables are recognised at amortised cost. Liabilities are recognised to the extent that the goods or services have been received (and irrespective of having been invoiced).

	2019-20 \$	2018-19 \$
Note 4.1B: Net gain or loss from financial assets		
Financial assets at amortised cost		
Interest revenue (Note 1.2B)	296,996	519,160
Net gains on financial assets at amortised cost	296,996	519,160

There are no gains or losses on financial liabilities.

Note 4.2: Fair value measurement

Accounting policy

FRDC engaged Jones Lang LaSalle Public Sector Valuations (JLL) to conduct an asset revaluation of all non-financial assets as at 30 June 2019. An annual assessment is undertaken to determine whether the carrying amount of the assets is materially different from the fair value. Comprehensive valuations are carried out at least once every three years. JLL has provided written assurance to the FRDC that the models developed are in compliance with AASB 13.

The methods utilised to determine and substantiate the unobservable inputs are derived and evaluated as follows.

Physical depreciation and obsolescence - assets that do not transact with enough frequency or transparency to develop objective opinions of value from observable market evidence that have been measured using the depreciated replacement cost approach. Under the depreciated replacement cost approach, the estimated cost to replace the asset is calculated and then adjusted to take into account physical depreciation and obsolescence. Physical depreciation and obsolescence has been determined based on professional judgement regarding physical, economic and external obsolescence factors relevant to the asset under consideration. For all leasehold improvement assets, the consumed economic benefit / asset obsolescence deduction is determined based on the term of the associated lease.

FRDC's policy is to recognise transfers into, and transfers out of, fair value hierarchy levels as at the end of the reporting period.

Note 4.2A: Fair value measurement

	Fair value measurements at the end of the reporting period	
	2019-20 \$	2018-19 \$
Non-financial assets		
Leasehold improvements	47,060	51,414
Plant and equipment	27,390	21,206
Total non-financial assets	74,450	72,620

The FRDC did not measure any non-financial assets at fair value on a non-recurring basis as at 31 May 2020.

As at 30 June 2019, Jones Lang LaSalle Public Sector Valuations conducted a revaluation of plant and equipment. The table above summarises the results of the valuation at fair value. A revaluation decrement was applied to the asset revaluation reserve by asset class and included in the equity section of the Statement of Financial Position. Refer Note: 2.2A.
