

# Application to Amend the Australian Fish Names Standard

## OFFICE USE

<b>DATE RECEIVED</b> + Any Re-Submission Dates	22/2/2024	
<b>APPLICATION NUMBER</b>	356	
	<b>Date and FNC #</b>	<b>Outcome</b>
<b>FNC Pre-Assessment (Informal)</b>	22/2/2024	Proceed to FNC 44
<b>FNC Initial Assessment</b>	FNC 44, 29/2/2024	Proceed to Public Consultation
<b>Public Consultation Initiated</b>		
<b>Public Consultation Completed</b>		
<b>FNC Final Assessment</b>		
<b>Updated in FN Database</b>		
<b>Updated in CAAB</b>		

## CHECKLIST

<b>Does this application meet the following requirements</b>	<b>Applicant</b> Y/N	<b>Office Use</b> Y/N
Read the Fish Names Processes on the <a href="#">Seafood Standards Website</a>	Y	Y
Check the Fish Names searchable database at <a href="http://www.fishnames.com.au">www.fishnames.com.au</a> for any use of the proposed name.	Y	Y
Determine whether samples of the species are required by contacting the <a href="#">FNC Project Manager</a> , and if so, arrange for samples for taxonomic evaluation and attach a copy of the results as evidence.	Y	N/A
Check that the proposed Standard Name meets the fish name protocols in Section 5 of this document.	Y	Y
Consult key fish names stakeholders regarding your proposed name, and attach evidence (emails, letters, etc) of their support.	N/A	N/A
Include as an attachment, a summary of changes, if any, that you made in response to concerns/points raised by key stakeholders.	N/A	N/A
Attach any supporting documents for the proposed Standard Name.	N/A	N/A
Attach any supporting published documents on the scientific name.	N/A	N/A
Complete the invoicing details in Section 9	N/A	N/A

## RE-SUBMISSION CHECKLIST

<b>Checklist to meet the requirements of a re-submitted application</b>	<b>Applicant</b> Y/N	<b>Office Use</b> Y/N
Complete the above checklist criteria		
Address each concern raised by the FNC and/or Public Consultation		
Attach additional supporting documents		

**NOTE** – Public Consultation is a critical part of the fish names process. This application and additional information will be made available to the public, except for any applicant details and invoicing information due to privacy requirements. Please advise of any specific commercial-in-confidence information.

Applicants will be added to the email list to keep updated.

### 1. SELECT APPLICATION TYPE

Add a <b>NEW</b> Standard Fish Name Y/N	Y			
Amend an <b>EXISTING</b> Standard Fish Name Y/N				
Taxonomic update Y/N	Y			
Is it an Individual Name or Group Name (tick one)	Individual Name	Y	Group Name	

### 2. PROPOSED STANDARD FISH NAME (SFN) DETAILS

Current SFN (if relevant)	
Proposed SFN	Reef Manta Ray
Alternative SFN (list any other preferences)	
Any other known names used for the species e.g. obsolete, local nickname, etc	Alfred Manta, Prince Alfred's Ray

### 3. PRIMARY REASON FOR PROPOSED SFN

A second manta ray, *Mobula alfredi*, was resurrected to species status by Marshall et al (2009). So, there are two species, both of which occur in Australian waters.

#### 4. SPECIES DETAILS

<b>Scientific Name</b>	<i>Mobula alfredi</i>			
<b>Authority</b>	(Krefft, 1868)			
<b>CAAB Code</b>	37 041005			
<b>Species Type</b> (e.g., finfish, crustacean, mollusc, jellyfish, sea cucumber, sharks or rays)	Ray			
<b>Australian Species:</b> specify the States and Territories in which the species is caught or harvested in	WA, NT, Qld, NSW			
<b>Imported Species:</b> specify the country(ies) of origin				
<b>Select Category(ies) Applicable</b>	Commercial harvest species	<input type="checkbox"/>	Exported species	<input type="checkbox"/>
	Aquaculture species	<input type="checkbox"/>	Imported species	<input type="checkbox"/>
	Recreational species	<input type="checkbox"/>		
	Other (Specify)			
<b>Select Habitat(s)</b>	Freshwater	<input type="checkbox"/>	Demersal shelf: less than 200m	<input type="checkbox"/> Y
	Estuarine	<input type="checkbox"/>	Demersal slope: more than 200m	<input type="checkbox"/>
	Coastal	<input type="checkbox"/>	Oceanic / pelagic	<input type="checkbox"/> Y
	Other (Specify)			
<b>Select Harvesting Method(s)</b>	Trawl	<input type="checkbox"/>	Pot or trap	<input type="checkbox"/>
	Non-trawl net (e.g. seine, gillnet)	<input type="checkbox"/>	Line (e.g. longline, dropline)	<input type="checkbox"/>
	Aquaculture	<input type="checkbox"/>	Recreational fishing	<input type="checkbox"/>
	Other (Specify)			

#### 5. PROTOCOLS FOR SELECTING STANDARD FISH NAMES

The FNC will assess whether your proposed SFN complies with the protocols.

Please comment briefly on whether you believe your proposed SFN complies with the following protocols below:

Protocol	Applicant Comment	Office Use
<b>6.4.1: Compliance with international obligations</b> requires that a standard fish name <ul style="list-style-type: none"> <li>does not create unnecessary obstacles to international trade as per the WTO GATT (General Agreements on Tariffs and Trade) which include the <a href="#">Technical Barriers to Trade</a> (TBT) Agreement.</li> </ul>	Complies	Agree

Protocol	Applicant Comment	Office Use
<p><b>6.4.2: Compliance with Federal and State laws</b> require that a standard fish name:</p> <ul style="list-style-type: none"> <li>• maintains or enhances the protection of public health and safety</li> <li>• provides adequate information to enable consumers to make informed choices</li> <li>• helps to prevent misleading or deceptive conduct</li> <li>• does not result in anti-competitive practices</li> <li>• does not facilitate unconscionable conduct</li> <li>• is consistent with applicable industry codes of conduct</li> <li>• protects consumers against unfair practices.</li> </ul>	Complies	Agree
<p><b>6.4.3 Preferred names Preference</b> will be given to:</p> <ul style="list-style-type: none"> <li>• a name that has over-riding historical significance</li> <li>• a name that is internationally accepted</li> <li>• a regional name where the species is most commonly encountered/caught</li> <li>• a name commonly used in Australia</li> <li>• a name that has strong stakeholder support</li> <li>• a name used in recent mainstream field guides</li> <li>• a name that most effectively distinguishes a species from its closest relatives</li> <li>• a name that generally conforms to other members of the family or generic-level grouping</li> <li>• a name that facilitates market acceptability</li> <li>• a name that is simple, unambiguous, and easily readable.</li> </ul>	Complies	Agree

Protocol	Applicant Comment	Office Use
<p><b>6.4.4 One name per species</b></p> <ul style="list-style-type: none"> <li>Requires that each species may be assigned a single, standard fish name, and no two species may have the same approved standard name.</li> </ul>	Complies	Agree
<p><b>6.4.5 Group names:</b> A group standard fish name:</p> <ul style="list-style-type: none"> <li>may cover multiple species in a particular scientific family or group of fish, and</li> <li>may not be the same as a species' standard fish name, and</li> <li>will follow internationally accepted names unless alternatives are well entrenched in Australian mainstream literature.</li> </ul>	N/A	N/A
<p><b>6.4.6 Subspecies and hybrids</b></p> <ul style="list-style-type: none"> <li>Subspecies and hybrids will not generally be given a standard fish name.</li> </ul>	N/A	N/A
<p><b>6.4.7 Structure of names</b></p> <ul style="list-style-type: none"> <li>Requires standard fish names to simplicity in names and structure (see protocols for full details).</li> </ul>	Complies	Agree
<p><b>6.4.8 Scientific names</b></p> <ul style="list-style-type: none"> <li>If the scientific name of a species changes, the standard fish name should remain unaffected unless there is a good reason for change.</li> <li>Generic or family scientific names may be used as standard fish.</li> </ul>	Complies	Agree
<p><b>6.4.9 Other grammatical rules and exceptions:</b> Standard fish names should adhere to the following:</p> <ul style="list-style-type: none"> <li>Use <b>capital letters</b> at the start of each word except directly following a hyphen</li> <li><b>Abbreviated forms</b> of words and combined words are preferred</li> <li><b>Words that end in 'ate':</b> For adjectives a 'd' is not required at the end of the word. For verbs a 'd' is required at the end of the word.</li> <li>Combine words that: <u>precede</u> band, banded, bar, barred or blotched; or</li> </ul>	Complies	Agree

Protocol	Applicant Comment	Office Use
<p><u>follow</u> double, false or half; or <u>precede</u> line, lined, speckled, spine, spotted, streak or streaked.</p> <ul style="list-style-type: none"> <li>• 'Margin' (a noun) is used if the type or colour of the margin is defined (e.g., 'Brownmargin Flathead')</li> <li>• 'Margined' (an adjective) is used if it is stand-alone (e.g., 'Margined Coralfish')</li> <li>• Multi is usually combined (e.g., 'Multispot Lanternfish')</li> <li>• 'Shorthead' is one word (e.g., 'Shorthead Lamprey')</li> <li>• 'Spangled' not 'spangle' (e.g., 'Spangled Emperor')</li> </ul>		

## 6. JUSTIFICATION AND CONSULTATION (APPLICANT TO COMPLETE)

<p><b>Justification:</b> Summarise why the proposed SFN is required and its benefits</p>
<ol style="list-style-type: none"> <li>1. In 2009, a second manta ray species, <i>M. alfredi</i>, was resurrected by Marshall et al. and needs adding to the Standard.</li> <li>2. Reef Manta Ray (or simply Reef Manta) is commonly used for the species but it has also been referred to as Alfred Manta Ray. This latter name refers to the species epithet and its interesting etymology.</li> <li>3. The scientific name changed in 2018 from <i>Manta alfredi</i> to <i>Mobula alfredi</i>.</li> </ol>
<p><b>Consultation:</b> Summarise the responses of key stakeholder support (attach evidence)</p>
<p><b>Impact of Consultation:</b> Summarise any key changes made as a consequence of consultation</p>

## 7. RELATED DOCUMENTS, EVIDENCE, WEBSITES

--

## 8. OTHER DETAILS

Do you want the FNC to consider granting interim approval for this application (Y/N)	N
--------------------------------------------------------------------------------------	---

**NOTE:** Interim approval does not guarantee that an application will be approved and will only be granted if the application is deemed to be non-contentious at the time of submission.

The normal timeline for applications is

- 1 Application received and assessed by FNC Project Manager
- 2 Initial consideration by the Fish Names Committee to determine if the application conforms with the protocols and is approved/not approved for public consultation
- 3 Approved proposed amendment is circulated for public consultation (at least 60 days)
- 4 FNC meets to consider the application based on the responses received through public consultation
- 5 If successful, the proposed amendment is added to the Australian Fish Names Standard.

## 9. INVOICE DETAILS

The following fees shall apply for all applications to add or amend names in the Australian Fish Names Standard (AS 5300) that have been approved for public consultation.

Note – Do not include payment with this application.
