EXPENDITURE TOTAL	\$ 10,000	\$ 2,186

Surplus (Deficit) Funds	\$ -	\$ 7,814
-------------------------	------	----------

Outcomes Report

Personal Development: Dominic worked closely with scientists over the year and his employment was funded by LHAC over this time. This scholarship funding was used for travel and accomodation in relation to his attendance at a Live Rock Workshop at Cape Leveque (WA)

Summary: Dominic was employed for a period of time in which he gained skills and knowledge of aquaculture with his time working with scientists and with Yolgu Traditional Owners. The outcome from this scholarship is not reflected in the amount of expenditure of this scholarship (as he didn't undertake more than one external workshop during this time) but he was employed with our organisation for a period of time and was able to gain confidence and knowledge through his employment and through his work within the aquaculture industry.
